

2022 Request for Proposals

Our Vision

The Moscow Women's Giving Circle is a friendly, fun-loving group of women who care deeply about our community of Latah County and are committed to making it a wonderful place to live. By pooling our money, we fund efforts that improve life for residents of our community, address local environmental concerns, and enhance community resources. The Circle is a volunteer-run group, making grants through a donor-advised fund with the Latah County Community Foundation located in Moscow, Idaho.

Our Goals

- The Circle provides a welcoming, empowering experience in philanthropy.
- The Circle funds organizations and efforts that make our community a more vibrant place to live, improve the local environment, and serve individuals and families in need.

2022 Grantmaking Guidelines

Grant Specifics

We know how difficult the last two years have been, and how challenging recovery is and will be for some time to come due to the impact of the Covid-19 pandemic, social and political unrest, and the strain of inflation and supply chain disruptions. Whether you provide direct human services, protect the living world, fight for equality, or inspire through the arts and culture, your work is vital to the health, vitality and wellbeing of our entire community.

To support organizations where they need it most, the Giving Circle has elected to again forgo a theme for this year's giving and open the funding cycle to *any and all proposals*. This includes general operating support, capacity building support and project-specific support.

Eligible organizations and efforts:

Applicants must be 501(c)(3) nonprofit organizations (or other eligible entities such as schools, libraries, etc.) based in Latah County, and/or serving Latah County. The Circle hopes to fund work that has a potentially large impact on the community or fills an important, unmet need. Grants will be awarded for one year. The Circle does not fund religious or political causes.

The Circle is built on the philosophy that all members of our community should be treated with dignity and respect. To support and enhance the rich diversity of our community, we are

committed to improving the quality of life and expanding opportunities for all. To honor this commitment, we do not fund organizations that engage in any form of discrimination.

While there is no upper limit to the grant requests that MGC will consider, *this year's grant pool is smaller than in years past and we may not be able to fund larger requests in full*. Please, do not let this stop you from applying!

We strongly encourage organizations of all sizes, capacities, and service sectors to apply. If you would like guidance on drafting an application, a member of our Grants Committee would be happy to spend time talking through a potential project or offering advice on what a successful proposal looks like. *Please reach out to us, we want to hear from you!* You can contact us by email at givingcirclemoscow@gmail.com.

Grantmaking Process

Interested groups should provide a brief narrative of need and/or project summary, as per the instructions found on pages 4-5. We assess applicants based on the merit of the proposal and the potential impact of the work. All applications must be received by March 31st, 2022, and the grants committee will announce finalists by April 15th, 2022. Finalist applications will then be up for voting and consideration by current Circle members April 16-29. Grant awardees will be announced the first week of May

Grant Reporting

Grant recipients are asked to respond to a few questions in a brief email interview and, if relevant, provide photographs (or other artifacts) that summarize their accomplishments within one month of the end of the grant period. We also ask that a representative of your organization attend our 2022/2023 winter meeting to share with Circle members how the funding was used and tell us about other upcoming work.
